Introduction

The All University Students' Development Association, Vavuniya District is a venture envisaged and materialized by the undergraduates of Vavuniya District to promote the level of education of the school going students of Vavuniya and to enable them to achieve higher prospects in Education as well as other social improvement.

Every year, we conduct a cricket match among our members, pilot examination and practical seminar for G.C.E Advanced Level students, Greeniya Exhibition to improve the skills of students, blood camp and medical camp to improve the health standard in our area and a chess competition to improve the talents in our students. We are planning to conduct these events in next year too. We are conducting these events free of charge. So we have to raise funds in order to conduct these programs.

Annual Pilot Examination

Annually, we conduct an Annual Pilot Examination for the Students who sit for Advanced Level Exams each year. According to our object of aiding and assisting the School students of our Neighbor Districts, we imply our activities not only in Vavuniya, but also in Mannar, Killinochchi and Mullaitivu; in order to support the students, who are from rural areas with poor economic Background.

I would like to mention here that our association is under taken **without any self-possessed motivations**. As the above consequences, we have decided to raise fund in our project area **to conduct the examination which is conducted free of charge and also to conduct some programs with considering goodness of all students in our area such as medical and blood camps, seminars** for school going students too.

The pilot examination is conducted for G.C.E (A/L) students, who sit for final examination each year, by us in free of charge. As usual, we have planned to conduct a model examination on the subjects **Mathematics, Biology, Physics, Chemistry, Information and communication technology, Agriculture, Economics, Business Studies, Accounting** and so on. Exams for Commerce stream is conducted only in Vavuniya due to lack of Human Resource. The examination is also conducted in our neighbor districts; **Mannar, Mullaithivu and Kilinochchi**, which belongs to Northern Province. We organize to hold this in free of charge at schools in order to make all the students to participate in this. In addition, we are conducting this examination in private tuition centers for the private candidates. We expect to conduct this examination in the beginning of May 2018.

Summary

Project title

Annual Pilot Examination for G.C.E Advanced Level Students (2018)

Duration

March 2018

Target areas

Vavuniya, Killinochchi, Mullaitivu and Mannar

Target groups

Students who will sit in G.C.E (A/L) Examination 2018 in science stream and Commerce Stream (only in Vavuniya District)

Objectives

To up-grade the educational standard of our community by improving the skills and knowledge of the students.

We believe that this examination will improve students' skills such as time management, proper answering, getting new ideas and so on. On the other hand, the students also get to know about their ranks in their own examination districts. As a result of preparation to the examination, the students are able to know their knowledge in subjects and clarity about themes and concepts.

To improve time management

It is considered as one of the best qualities among the students, as it upwards themselves in their examination. So, this pilot exam will give them a proper chance to test their time organization.

To show their current standard

Evaluation method is varied from the system which is followed in schools, but alike the system which is followed in the G.C.E (A/L) examination. (i.e., the ranks will be given according to their Z-Score.) On the other hand, in case of common marking we can able to put an end to educational discriminations.

To get more practice and needed suggestions

Besides of these, we would like to give some expectable questions and new ideas in answering through our schemes which are issued by us on the last day of the examination. At the same time, the students also able to become familiar with rules and regulations of the examination.

Expected outcome

We have to mention that the merits at G.C.E (A/L) Examination 2015 in mathematics stream fell down in the developing educational history of Vavuniya district.

- The students will be able to **revise the subjects themselves**, and get to know about their **fluency in subjects** by preparing for this exam.

- The students are able **to get new ideas and proper methods** in answering through our scheme. Beside these, the candidates are able to evaluate their positions in the district, which they belong to.
- While organizing this examination, we also develop our skills such as **co-ordination, quick analyze, making proper conversation** and so on by their **feedback**.

At last, when we analyze the output of the students, we are able to know our districts' educational stage. So in future, we will be able to do the proper up-grading projects to develop the educational level of the students and to cease the degradation of our society. And we would like to mention here that it's our prime duty as we all are an educated community

Structure

First we get permission from the bellow zones also collect information about the amount of students in subject wise. We have to mention here that this amount is a rough estimate due to lack of proper details. Because repeaters will be not included in the Preliminary given details.

Vavuniya: **Vavuniya South**
 Vavuniya North

Killinochchi: **Killinochchi**

Mullaitivu: **Mullaitivu**
 Thunukai

Mannar: **Mannar**

- ❖ We **make groups among ourselves** according to our fluencies in subjects. The exam papers and schemes are prepared by the groups under the **guidance of professional Person**.
- ❖ As a next step, we make a **suitable time table** to conduct the exam **in scheduled time**.
- ❖ In Vavuniya district, the **supervision for the examination is done by our members**. But, for the other districts only the exam papers and Schemes will be sent by us.
- ❖ The answer papers of the students are corrected according to the schemes. And this will be a common marking **without any educational discrimination** (this happens only in Vavuniya District).
- ❖ The students' district **ranking system** will be **according to their z-scores**, in contrast with the school ranking system.
- ❖ After finalizing the result sheet, it will be published in the end of May or in June. The result sheets are issued in school vice and a copy for the Zonal Directors of each zone. And also **we release the results in online**.

- ❖ On the other hand, results are analyzed by us for our future educational upgrading projects to raise the educational standard of our community.

Budget Analysis

We have planned to conduct this examination in **free of charge** i.e., **without getting any financial aid from the students**. As a result of this, we have to raise fund so that we need a fit financial assistance from People who we mentioned Several times above, who are not only in our Vavuniya district but also in our project areas too. We hope to raise enough funds, according to our budget. **The printing press is decided according to their quotations**. We have to give for a **student Exam papers and schemes for three subjects, and a feedback sheet**. It is not possible to consider only about printing expenses, but we have to consider about expense for **type setting, transportation expenses**, and so on.

Down Below is a Rough Statement of what we expect as the expenses would be and please mind This is not the Final Since the lag of Space availability we've annexed an Excel File with this. And in addition to that Printing Cost We have the usual cost which we have to bear with every common exam we organize, Such as,

- ❖ **Transporting**
- ❖ **Packing**
- ❖ **Type Setting**

Type setting			
Paper type	Cost	Total No	Total cost
A3	210	120	25200
A4	120	25	3000
Sub total			28200

Details	Cost
Type setting	28200
Printing	195000
Packing	10000
Transporting	12000
Total	245200

Printing		
Subjects	A3	A4
Com.Maths	12	2
Biology	14	3
Chemistry	15	3
Physics	14	3
I.C.T	10	3
Agriculture	12	2
Business	15	3
Accounts	14	3
Economics	14	3
Sub total	120	25

Practical seminar

Last year, we conducted practical seminars for 3 days to the students who were sitting for the A/L examination. We asked help from physic and chemistry teachers and planned to do the practical which were expected for the examination. We asked the help of schools and collected the required equipment. We prepared a handout for the practical with the help of a teacher and issued handouts for the students. Through our practical we get to know that students were able to get wide knowledge about practical and they were able to clear their doubts. Lack of some facilities (chemicals, instruments etc), we are not able to do some practical and support the students. This year too we expect to do practical seminars.

In addition to this, we are planning to have an examination related to those practical this year in order to estimate the output of this practical seminar

Down Below is a Rough Statement of what we expect as the expenses would be and please mind This is not the Final.

Details	Cost
Stationary items to display practical	2000
Handouts	15000
Exam papers	5000
Refreshments for the students	6000
Total	28000

Greeniya exhibition

Representing the intersection of fine art practice, education and history, these early participants aimed to formulate the goals, future and improvement of photographic education. In order to find an identity on Vavuniya we conducted drawing competitions among students and photographic competitions among students and public. Through our exhibition we find many unknown facts of Vavuniya and we made a chance for all the people to know about our district. For that we booked a hall and organized an exhibition and invited all the school students. We exhibited their drawings, photographs and many unknown facts. This year too we are planning to do an exhibition on different heading

Here we show the estimated expenses for this exhibition.

Details	Cost
Hall booking	20000
Gifts	50000
Exhibits arrangement decorations	30000
Photographs printing	30000
Refreshment for the students	7000
total	137000

Medical camp

In some rural areas in Vavuniya need to travel a long distance to get better basic treatment. Due to such circumstances, the poor living in these remote locations go on suffering from easily preventable diseases. We provide general check-ups. The patients who need more in depth treatment are suggested to go to general hospitals. Through our medical camps many get to know their problems and they can understand their problems in initial stages. So in order to help these people we annually organize medical camp with the team of doctors and pharmacists. Last year we conducted a medical camp in sundrapuram. This year, too we expect to organize medical camps.

Down below is a rough statement of what we expect as the expenses would be and please mind. This is not a final. We can provide many facilities in the following years.

Details	Cost
Drugs	40000
Transportation	10000
Refreshments	5000
Total	55000

Blood camp

We conduct a blood camp in our building with the help of Red cross and other medical institutions to help our own people. We do this activity without expecting any source of income. It is conducted only with the motive of improving the welfare of our own place.

A rough estimation is given below.

Details	Cost
Arrangements	5000
Transportation	10000
Refreshments	5000
Total	20000

Chess campaign

We regularly organize chess competitions and chess camps to develop healthy mind. Chess has been considered as a game played only by intellectuals and individuals with critical thinking abilities. We organize chess competitions and camps for all age groups. For this we get the help of the sport teachers and organize a team of teachers to guide students. We organize these camps and completions in schools with permission. After the competitions we issue gifts for the winners to encourage them. We have an idea to organize chess camps and competitions this year too.

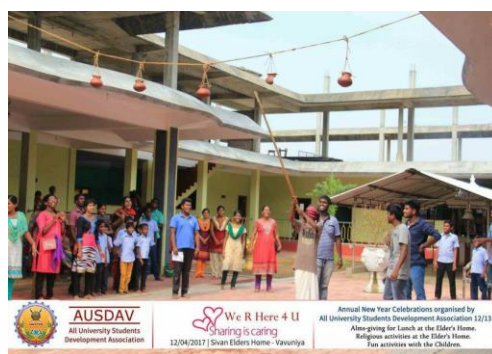

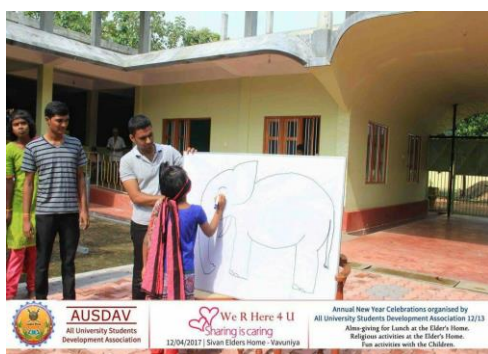

Here we show our estimated expenses for a campaign and competition. But we usually organize more than one campaigns and competitions.

Details	Cost
Hall	10000
Handouts	5000
Gifts	20000
Refreshments for students	5000
Total	40000

New year celebration with elders and children.

Last year we celebrated Tamil new year at sivan temple elder's and children's homes in order to make them happy. We had organized many fun activities and games among children and elders. They enjoyed well. We tried a lot to make them feel better. We issued gifts to all of them. If we have enough facilities this year too we like to have a chance to celebrate new year with them.

Here we show the estimated expenses for this event.

Details	Cost
Arrangements	20000
Lunch for elders and children	30000
Gifts	20000
Transport	10000
Refreshment for children and elders	5000
Total	85000

Monthly exam

We are annually conducting a monthly exam for all Advanced level students free of charge. We conduct this examination and distribute the corrected papers to the students. We do this in order to make the students to understand their level of studies. They can do further studying criteria to improve their studies.

A rough estimation is given below.

Details	Cost
Exam papers per month	3000
Estimations per year	30000

Robotics Workshop

We are planning to conduct a robotics workshop for the school students in order to create an interest in robotic field among school students. There is a lack of knowledge about robotics among students in our area due to lack of facilities in schools. We would like to choose only 35 students this year for this workshop due to our limitations of resources. We can do this to many more students by considering the output of this workshop. We hope it will reach the students and create an interest in them which may help for their future.

A rough estimation is given below.

Details	Cost
Arrangements	10000
Refreshments	5000
Transport	10000
Equipment	15000
Total	40000

ICT quiz

We are planning to conduct a quiz related to ICT field to the school students of grade 10 and 11. Knowledge of Information technology is at low level in some areas of our district. There are no qualified teachers in some schools and students do not show any interest in these fields. We think that we can change this scenario by having a quiz at school level and zonal level. Students will show an interest in ICT field if they participate in this quiz. The quiz will not be from text books; it will be on general topics.

We can have quiz on other subjects as well as all grades by seeing the results of this project.

A rough estimation is given below.

Details	Cost
Exam papers	15000
Refreshments	5000
Transport	5000
Total	25000

Ordinary level Workshop

There are no proper teaching facilities in some rural schools in our district. By considering the Ordinary level results of students from rural areas we have planned to conduct a workshop for those students in some specific subjects. We select subjects by having a discussion with those schools' administration and do the workshops with the help of qualified school teachers in the month of October and November which may help to face the Ordinary level examination. It is not a sudden improvement but it may help in future.

A rough estimation is given below.

Details	Cost
Arrangements	10000
Refreshments	5000
Transport	10000
Payment for teachers	15000
Total	40000

Conclusion

We are planning to do these projects in order to improve the educational level of our district. We are doing this in free of charge for the students.

Final estimation is given below.

Details	Cost(rs)
Annual Pilot Examination	245200
Practical seminar	28000
Greeniya exhibition	137000
Medical camp	55000
Blood camp	20000
Chess campaign	40000
New year celebration	85000
Monthly exam	30000
Robotic workshop	40000
ICT quiz	25000
Ordinary level workshop	40000
Total	745200
